WEST COAST GANGSTA BEATS AUSTRIAN TECHNO ALL DAY.

Dr. Dre

The Beats Acoustic Engine™ makes your listening experience more intimate, personal, and real than any in-ear headphone ever could hope to. Our signature DSP software is designed to generate the emotional experience that Dr. Dre, Jimmy Iovine, and some of the music industry's greatest rock, hip-hop, pop, electronic, and R&B producers want you to feel. This is how music would sound if the artist could play it back for you in person.

Silence the noise from your daily commute or the drama from your loud neighbors with our no-compromise dual-mode Adaptive Noise Canceling. In-ear headphones will never be able to attain the same quality and clarity that the Beats Studio® provide... period.

WE Truly Listen to YOU!

ACG^(R)

At Anderson Counseling Group we are truly able to listen to your thoughts and feelings. With our state-of-the-art Thought Grabber™ technology we can listen directly to every thought process that enters your mind. In those times when you just want to talk to someone about the difficulties of life and you just don't have the words, ACG® is here to make your healing much easier. For a consultation please call 1 (877) HED-READ, and one of our trained professionals will go through the process of fully getting your feelings out and fully healing.
